03/2023 - Present   Adelaide, SA

WORK EXPERIENCE

Web Developer and Level 2 technical support
GoGood

05/2022 - Present   Remote

A health and wellbeing app that bring toguether gyms, psychologyts, personal trainers and the users that want to enjoy this health services.

Achievements/Tasks

- Implemented a map showing the distance of user to the gym (where he will be allowed to make a checkin).
- A search engine that uses filters to better provide results. This uses ElasticSeach (AWS) for the querys and filters, then show all the gym ploted on a interactive map.
- Made a new micro service (in AWS lambda) to manage all the content downloadable.
- Remade in Rails all the access rules for the diferent stackholders.
- Build a long list of components for a new app that we will soon start to code.
- I am a Level 2 Support Agent who is responsible for answering tickets according to a schedule that spans 2 days per week.
